The scope of this investigation

Goods Concerned

This investigation covers Aluminium Extrusions exported from People's Republic of China (PRC), described as:

The goods under investigation are bars, rods, profiles (whether or not hollow), tubes, pipes; unassembled; whether or not prepared for use in structures (e.g. cut to length, drilled, bent, chamfered, threaded); made from aluminium whether or not alloyed, containing not more than 99.3% aluminium.

The product concerned is commonly referred to as 'aluminium extrusions', referring to its most common manufacturing process even if it can also be produced by other production processes such as rolling, forging or casting.

These Aluminium Extrusions are currently classifiable within the following commodity code(s): **76041010, 76041090, 76042100, 76042910, 76042990, 76081000, 76082081, 76082089 and 76109090.**

In this pre-sampling questionnaire, these goods will be referred to as 'the goods concerned'. Any reference to 'goods concerned' in this pre-sampling questionnaire refers to the goods description above, regardless of the commodity code under which they are exported.

Like goods

In addition to seeking information about your company's export sales to the UK of the goods concerned, this pre-sampling questionnaire will also ask about your sales of like goods in your domestic market and to third countries. Any reference to '**like goods**' in this questionnaire refers to goods which are like the goods concerned in all respects, or with characteristics closely resembling them.

Instructions

The Trade Remedies Authority (TRA) is responsible for investigating the allegation that Aluminium Extrusions from the People's Republic of China (PRC) are being exported to the United Kingdom (UK) at prices less than their normal value and that this dumping (sales at less than normal value) is causing injury to the UK industry for these goods.

I - Why you are being asked to complete this pre-sampling questionnaire

We are seeking your cooperation as an **overseas exporter** to identify whether the alleged dumping has occurred and has caused injury to the UK industry. The information your company provides will help us determine a fair and appropriate response.

This pre-sampling questionnaire allows us to collect basic information and data about your company. If a large number of overseas exporters of the goods concerned from the People's Republic of China complete this pre-sampling questionnaire, we will use the information each one provides to help us decide which companies we want to sample for further investigation. If you are sampled, we will send you a more detailed questionnaire to complete.

For more information in relation to this case, you may refer to the Notice of Initiation published at: www.trade-remedies.service.gov.uk/public/cases.

If you are sampled for further investigation, we will provide you with a further detailed questionnaire. By submitting a completed detailed questionnaire response, you might become eligible for an individual anti-dumping amount, if we are recommending that measures apply following this investigation. Please refer to [Section C](#) for more information on individual anti-dumping amounts.

If you do not complete this pre-sampling questionnaire or the detailed questionnaire, you could be found to be non-cooperating. For more details on how this may affect you, please consult our [operational guidance on non-cooperation](#).

II – Who should complete this form

You should complete this form if you are an **overseas exporter** of Aluminium Extrusions exported from the People's Republic of China ('the goods concerned').

If you are not an **overseas exporter**, please complete either the relevant Pre-Sampling Questionnaire or the Contributor Registration Form.

III – Deadline for response

A completed pre-sampling questionnaire must be submitted to the TRA by no later than **06 July 2021**. If you are unable to provide a completed submission by the given due date and you wish to request an extension, please contact AD0012@traderemedies.gov.uk.

IV – Note about confidentiality

You will need to submit one confidential version and one non-confidential version of your pre-sampling questionnaire by the due date. Please ensure that each page of information you provide is clearly marked either “Confidential” or “Non-Confidential” in the header. It is your responsibility to ensure that the non-confidential version does not contain any confidential information.

Please see <https://www.gov.uk/government/publications/the-uk-trade-remedies-investigations-process/an-introduction-to-our-investigations-process#how-we-handle-confidential-information> for further information on what can be considered confidential and how to prepare a non-confidential version of this questionnaire.

All information provided to the TRA in confidence will be treated accordingly and only used for this investigation (except in limited circumstance as permitted by regulation 46 of the Trade Remedies (Dumping and Subsidisation) (EU Exit) Regulations 2019) and will be stored in protected systems. The non-confidential version of your submission will be placed on the public file, which is available on www.trade-remedies.service.gov.uk/public/cases.

Please describe your interest in this case:

Answer:

Guangdong JMA Aluminium Profile Factory (Group) Co., Ltd. (“Guangdong JMA”) is a Chinese producer of the goods concerned during the Period of Investigation (“POI”). During the POI, Guangdong JMA processed the goods concerned under processing trade method for its affiliated company JMA (HK) COMPANY LIMITED (“JMA (HK)”) which then exported the goods concerned to the UK. JMA (HK) is also submitting a PSQ response to the TRA separately.

In the context of the UK Government’s regulations and guidelines associated with the COVID-19 pandemic, please state if this has had any impact on your company’s normal business activity **in the UK** during the POI. If applicable, please provide evidence.

Answer:

There is no impact on Guangdong JMA’s normal business activity in the UK during the POI.

A3 – Associated parties and operational links

B1 – Production

Please fill in your company’s total production volume and capacity for the goods concerned and the like goods for the POI, in the table below.

	Volume (Metric Tonnes)
Overall production of the goods concerned and the like goods during the POI	<u>[Non-confidential range: 140,000 – 170,000]</u>
Total production capacity of the goods concerned and the like goods during the POI	<u>[Non-confidential range: 170,000 – 210,000]</u>

B2 – Sales volume and value

Please provide the total sales volumes and sales price values in the table below.

	Volume (Metric Tonnes)	CIF Value in CNY
Total export sales of the goods concerned to the UK in the POI, manufactured by your company	<u>[Non-confidential range: 35 – 43]</u>	<u>[Non-confidential range: 160,000 – 200,000]</u>

Total domestic sales of like goods in the POI not manufactured by your company (e.g. purchased by your company and re-sold domestically)	<u>0</u>	<u>0</u>

Answer:

During the POI, Guangdong JMA processed the goods concerned under processing trade method for its affiliated company JMA (HK) COMPANY LIMITED (“JMA (HK)”) which then exported the goods concerned to the UK. In the above table, the CIF Value in CNY reported is the processing fee for JMA (HK). While in the table below, the CIF Value in GBP is the value of the goods concerned exported to the UK by JMA (HK) under processing trade method.

Please provide a breakdown of the **commodity codes** your company exported to the UK during the POI, including the CIF sales value and sales volume for each.

Commodity Code	CIF Value in GBP (£)	Volume Exported (Metric Tonnes)
Bars and Rods	<u>0</u>	<u>0</u>
Tubes and Pipes – not welded	<u>0</u>	<u>0</u>

Please provide information on the **UK-based companies** that your company exported to during the POI, including the CIF sales value and sales volume, as well as your company’s relationship to them (e.g. associated or non-associated).

[confidential]	non-associated	<u>[Non-confidential range: 90,000 – 110,000]</u>	<u>[Non-confidential range: 35 – 43]</u>

+ Add additional rows as required

Answer:

During the POI, Guangdong JMA processed the goods concerned under processing trade method for its affiliated company JMA (HK) COMPANY LIMITED (“JMA (HK)”) which then exported the goods concerned to the UK. Accordingly, the data reported above is the value and volume exported to the UK company by JMA (HK) under processing trade method.

Section C – Individual Anti-Dumping Amount

If the TRA decides to sample overseas exporters, and you are **not** selected for this sample, please indicate whether you would like to complete the detailed questionnaire.

By submitting a completed detailed questionnaire response, you might become eligible for an individual anti-dumping amount if we recommend applying measures following this investigation.

- Yes
 - No

If you are **not** selected for this sample and you then do **not** choose to complete a detailed questionnaire, you will not be eligible for an individual anti-dumping amount. Your anti-dumping amount will be determined based on the amounts imposed on the overseas exporters in the sample.

Please note:

If we recommend that a trade remedy measure is applied following this investigation, and you have requested an individual anti-dumping amount, please note that you will be required to supply the necessary information within the given timeframe for us to calculate this for you.

The TRA must accept an overseas exporter's request for an individual anti-dumping amount, and calculate an individual amount, providing that:

- the information required is complete and submitted on time; and
- the number of requests for individual calculations does not unduly burden the investigation and risk delaying its conclusion.

Section D – Additional information

Please provide any other relevant information which you think would be useful to help our investigation in the box below.

This may include:

- other interested parties you believe should receive a questionnaire;
- any initial concerns you have about the possible existence of a particular market situation in the domestic market of the People’s Republic of China (the exporting country) such as:
 - situations/distortions in the domestic market of the PRC where prices are artificially low;
 - significant barter trade;
 - prices reflect non-commercial factors; or
 - any other reasonwhich means it is not appropriate to use the comparable price to determine the normal value of the goods concerned;
- any initial concerns you have about the scope of the investigation;
- anything else you consider relevant.

Answer:

Guangdong JMA submits that there is no existence of a particular market situation in the domestic market of the People’s Republic of China. In addition, the scope of the investigation is too wide. For example, it is not clear that whether or not the products in a packaged kit (“finished goods kit”) are included in the scope of investigation.

Section E – Economic Interest Test

In addition, as part of this investigation, we will conduct an Economic Interest Test to assess whether a measure is in the economic interest of the UK. As part of this process, we would like your help to identify upstream and downstream industries which may wish to contribute to our investigation. If possible, please provide the names and contact information for any UK-based companies operating upstream or downstream of your business in the supply chain for the like goods.
