

ANTI-DUMPING INVESTIGATION No. AD0012

Anti-dumping investigation on aluminium extrusions originating in the People's Republic of China

Notification of sample

Given the number of responses in the registration period, the Trade Remedies Authority (TRA), will limit its examination of overseas exporters.

This notification is not intended to preclude the TRA from limiting its examination to a sample of transactions for the purchase of like goods.

Overseas exporter sampling

Based on the information available to the TRA, the sample will include the following 4 overseas exporters. In accordance with Regulation 56(3a) of The Trade Remedies (Dumping and Subsidisation)(EU Exit) Regulations 2019, the sample is based on the largest volume of exports.

1. The Press Metal Group of Companies composed of Press Metal International Ltd (China), Press Metal International Technology Ltd. (China), Press Metal UK Limited.
2. Shandong Nanshan Aluminium Co. Ltd,
3. The PanAsialum Group composed of PanAsia Enterprises (Nan Yang) Co Ltd and PanAsia Aluminium (China) Limited
4. The Haomei Group composed of the two exporting producers Guangdong Haomei New Materials Co., Ltd., and Guangdong King Metal Light Alloy Technology Co., Ltd.

Sampled overseas exporters will be expected to provide adequate responses to questionnaires and allow the TRA to verify the data provided.

Parties are invited to comment on this sample via the trade remedies service by **15 July 2021**. Please provide both a confidential and non-confidential response.

Requesting an individual anti-dumping amount

Cooperating overseas exporters that are not included in the sample may request that the TRA calculate an individual anti-dumping amount provided that the overseas exporter has supplied the necessary information in time for that information to be considered for the investigation. The TRA will accept that request unless the number of exporters requesting an individual anti-dumping amount is so large that individual examination would be unduly burdensome and prevent the timely completion of the investigation.

If you would like to request individual treatment, please complete Annex A and submit this on our online Trade Remedies Service.

Applications for individual examination may not be considered if the party in question did not make themselves known within the registration period.

The TRA will determine anti-dumping amounts for non-sampled cooperating overseas exporters, and not assign individual anti-dumping amounts, using the weighted average of the amounts determined for the overseas exporters in the sample.

Annex A – Request for individual treatment for the anti-dumping investigation AD0012

If you wish to request for individual treatment, complete the form and submit it through our online Trade Remedies Service by **15/07/2021**.

Company name:	
Authorised 3 rd party contact if applicable:

<input type="checkbox"/>	I would like to apply for the company I represent to be considered for an individual anti-dumping amount.
<input type="checkbox"/>	I understand that, even if this application is accepted, it does not prevent the possibility that the company I represent being found non-cooperative, and therefore being given the residual margin. ¹
<input type="checkbox"/>	I understand that, in the event this application is accepted the company I represent will be unable to opt out of individual treatment. This applies even if the individual anti-dumping amount is higher than the non-sampled cooperative party amount that would otherwise have been calculated for the company I represent.

Signature.

¹ Residual margin here refers to the rate given to uncooperative companies. It is at least as high as the highest calculated anti-dumping amount.
