

Extensions - Note to Public File

Note to the public file summarising time extensions granted for submission of the pre-sampling questionnaire.

The Trade Remedies Authority (TRA) received an application for an extension of time to submit the pre-sampling questionnaire.

Having considered their application, the TRA has determined that granting a certain extension would not significantly impede the progress of the investigation and has therefore decided to grant an extension to the following party:

Company name	Reason for granting extension	New due date for completed questionnaire response
Jiangsu Zhongtian Technology Co., Ltd	Newly erupted COVID-19 affecting a large part of China, especially in Beijing where certain areas are now in lockdown.	20 May 2022
Ningbo Geyida Cable Technology Co., Ltd	Problems registering on the TRS.	20 May 2022
BT Sourced	Issues gathering data from different departments within the organisation.	27 May 2022
