

**Investigation into Alleged Subsidisation**

**Investigation No AS0020**

Ironing Boards

**Note to the file regarding an extension**

**Note to interested parties and contributors**

This note to the file is regarding an extension granted to an exporter.

On 3 May 2022, the TRA received an extension request to the registration period of 4 days made on behalf of an exporter. Having considered the extension request, the TRA has determined that an extended registration period would not significantly impede the progress of the investigation. The TRA therefore granted an extension to this party to 10 May 2022.
