

## TRANSITION REVIEW No.TD0001

Anti-dumping duties on certain welded tubes and pipes, of iron or non-alloy steel originating in the Republic of Belarus, the People's Republic of China and the Russian Federation.

### Note to the file

Following comments from several interested parties, TRID would like to submit the following notes to file.

The regulations that contain provisions for the conduct of transition reviews are The Trade Remedies (Dumping and Subsidisation) (EU Exit) Regulations 2019. These regulations are made pursuant to paragraph 21 of Schedule 4 to the Taxation (Cross-border Trade) Act 2018. Part 12 of The Trade Remedies (Dumping and Subsidisation) (EU Exit) Regulations 2019 makes provision for some EU anti-dumping and subsidy trade remedies to take effect as if they were UK-specific when the UK leaves the EU. It also provides the facility for a transition review to be carried out in order to determine whether a measure is appropriate for the UK. Specifically, Regulations 96, 97 and 98 contain relevant provisions around the legal basis and mechanics for initiating a transition review.

All transition reviews conducted by TRID will confine their scope to the UK industry and UK market of the goods subject to review and/or like goods. This is in line with Regulations 99A(1)(b), 99A(2)(b), and 100A(3)(c) of The Trade Remedies (Dumping and Subsidisation) (EU Exit) Regulations 2019, among other provisions.

For further information on how TRID conducts transition reviews, including review of maintained measures and decision making, please refer to the following public guidance:
