Note to interested parties regarding a clarification in the exporter questionnaire for TD0001

The Secretary of State for International Trade ('the Secretary of State') received a request for clarification regarding questions in the exporter questionnaire of **TD0001: Anti-dumping proceeding certain welded tubes and pipes of iron or non-alloy steel originating in the Republic of Belarus, the People's Republic of China, and the Russian Federation**

Following the request, the Secretary of State has decided to make an amendment to a question in the Exporter questionnaire, as follows:

Query Raised	Clarification provided
Question D14-2 stated: "...The cost of production of the material by the associated suppliers should be provided on the same basis as requested in the 'raw materials produced' sheets of the cost tables". However, no 'raw materials produced' sheets were found in the Annexes files. Please clarify what tables should be provided.	Change D14-2 to: "If you purchase materials or inputs from associated suppliers, please provide information about how prices are set; the negotiation process on price setting; and any contracts or evidence of price negotiation. Also, in addition to the 'Cost of Production (CoP)' sheets for domestic and UK sales, the cost of production of the material by the associated suppliers should be provided on the same basis by adding in a column to the 'raw materials purchased' sheet, labelling it as 'Associated supplier CoP' ".
