

Department for
International Trade

Note to the file

Notice to interested parties regarding a time extension to complete a questionnaire

The Secretary of State for International Trade ('the Secretary of State') has received an application for an extension of time to submit the questionnaire response from EEF, because of the challenges they are experiencing retrieving the data necessary to participate fully in this transition review.

Having considered their application, the Secretary of State has determined that granting an extension would not significantly impede the progress of the investigation and has therefore decided to grant an extension to the following party:

Company name	New due date for completed questionnaire response
EEF (UK Steel/Make UK)	1 st November 2020
