Summary of the issues involved in the review

The review will consider—

- whether the application of the anti-dumping amount is necessary or sufficient to offset dumping of the relevant goods in the UK market; and
- whether injury to the UK industry in the relevant goods would occur if the anti-dumping amount were no longer applied to those goods.

Period of investigation:

The period of investigation is 1 January 2019 to 31 December 2019. In order to assess injury, we will examine the period from 1 January 2016 to 31 December 2019.

Summary of the review process

The review will involve the following process:

- inviting parties to register their interest in the review;
- issuing questionnaires, where practicable, to:
 - overseas exporters or importers of the goods subject to review;
 - any trade or business association of overseas producers, overseas exporters or importers of the goods subject to review;
 - UK producers of like goods. Like goods are goods that are like the goods subject to review in all respects or, if there are no such goods, goods that have characteristics closely resembling the goods subject to review;
 - any trade or business association of UK producers of like goods; and
 - any other party (including interested parties - other than the government of the foreign country or territory - and contributors) that has registered an interest in the review.
- verification to further assess and examine information;
- analysing information gathered; and
- publication of a Statement of Essential Facts. Interested parties will have 30 days to comment on the Statement of Essential facts and the Secretary of State will then make a Preliminary Decision.
