Tank storage  
Cleaning facilities

## ARGENT ENERGY IN BRIEF

3 locations across UK and Netherlands

345,000m<sup>3</sup> of tank storage capacity

280,000 MT of waste-based biodiesel production capacity

Cleaning and pre-treatment facilities

# Biodiesel production process

USE OF WASTE-BASED FEEDSTOCK

## CONTINUOUS IMPROVEMENT

Always trying to improve our production, safety and services

## EXPANDING FEEDSTOCK BASE

Actively looking for new waste-based feedstock types that can be used in our production process

## VALORISATION OF BY-PRODUCTS

Constantly trying to find new applications for what could be considered as waste
