The review will consider—

- whether the application of the anti-dumping amount is necessary or sufficient to offset dumping of the relevant goods in the UK market; and
- whether injury to the UK industry in the relevant goods would occur if the anti-dumping amount were no longer applied to those goods.

Period of investigation:

The period of investigation is 01/01/2020 to 31/12/2020. In order to assess injury, we will examine the period from 01/01/2017 to 31/12/2020.

The review will involve the following process:

- issuing questionnaires, where practicable, to:

 - any trade or business association of UK producers of like goods; and
 - any other party (including interested parties - other than the government of the foreign country or territory - and contributors) that has registered an interest in the review.
- verification to further assess and examine information, including verification visits and/or remote verification;
- analysing information gathered; and
