Like goods

Any reference to 'like goods' in this pre-sampling questionnaire refers to goods produced in the UK or imported into the UK from a country other than the People's Republic of China which are like the goods subject to review in all respects, or with characteristics closely resembling them.

Please follow the instructions for each question to provide the appropriate information regarding the goods subject to review or like goods.

Instructions

The Trade Remedies Investigations Directorate (TRID) of the United Kingdom's Department for International Trade will be carrying out a transition review of each trade remedy measure active under the EU system that the United Kingdom (UK) has decided to transition after EU exit. This transition review will consider whether the anti-dumping and/or countervailing measures for continuous filament glass fibre products from the People's Republic of China are necessary or sufficient to offset dumping and/or subsidisation, and whether there would be injury to the UK industry if these measures were removed.

I - Why you are being asked to complete this pre-sampling questionnaire

We are seeking your cooperation as a contributor to inform our review of whether the current anti-dumping and/or countervailing measures should be maintained, varied or discontinued.

This pre-sampling questionnaire allows us to collect basic information and data about your organisation.

For more information about this case, you may refer to the Notice of Initiation published at: www.trade-remedies.service.gov.uk/public/cases.

II – Who should complete this form

You should complete this form if you are interested in being a contributor to the transition review and you are not a producer, importer or exporter of the goods subject to review or like goods.

III – Deadline for response

A completed pre-sampling questionnaire must be submitted to TRID by no later than the **13 February 2021**. If you are unable to provide a completed submission by the given due date and you wish to request an extension, please contact the case team as follows: TD0008@traderemedies.gov.uk (dumping) or TS0009@traderemedies.gov.uk (countervailing measures).

IV – Note about confidentiality

You will need to submit one confidential version and one non-confidential version of your pre-sampling questionnaire by the due date. Please ensure that each page of information you provide is clearly marked either "Confidential" or "Non-Confidential"

in the header. It is your responsibility to ensure that the non-confidential version does not contain any confidential information.

Please see <https://www.gov.uk/government/publications/the-uk-trade-remedies-investigations-process/an-introduction-to-our-investigations-process#how-we-handle-confidential-information> for further information on what can be considered confidential and how to prepare a non-confidential version of this questionnaire.

The non-confidential version of your submission will be placed on the public file, which is available on www.trade-remedies.service.gov.uk/public/cases.
