## Business areas

---

China National Materials Company Limited and its subsidiaries, provides cement equipment and engineering services, as well as manufactures cement, glass fiber, and non-metal materials.

It operates in four segments: Cement Equipment and Engineering Services, Glass Fiber, Cement, and High-Tech Materials.

The Cement Equipment and Engineering Services segment provides engineering and construction services for mines, roads, bridges, and tunnels projects; builds equipment used in new dry process cement production lines; engages in equipment purchasing; offers project research, development, and design services; and provides turnkey services.

The Glass Fiber segment engages in the production and sale of glass fiber and glass fiber products, such as roving, glass fiber mats, electronic yarn, chopped strands, and woven roving.

The Cement segment produces and sells cements, clinkers, and standard sand.

The High-Tech Materials segment involves in the production and sale of glass microfiber paper, high strength glass fiber, high temperature filtration materials, and composite materials; and the provision of design, equipment, and technology services for glass fiber production and non metal mineral fine processing. This segment also provides microcrystalline alumina ceramics and fine fused quartz ceramics; high pressure electric porcelain and used silica ceramic crucible; and KTP, infrared crystals, and microcrystalline glass. The company sells its products in the People's Republic of China, the Middle East, Europe, Africa, and other Asian countries.

### China Jushi Co., Ltd.

China Jushi Co., Ltd. (referred to as "China Jushi" hereinafter) is a core enterprise in the fiberglass business division of China National Building Material Co., Ltd. (HK3323; "CNBM" hereinafter), and specializes in the manufacture and sales of fiberglass and its fabrics as its main business. China Jushi is one of the largest enterprises in the new material industry of China and in 1999, it got listed on the Shanghai Stock Exchange (Stock name: China Jushi, Stock Code: 600176). Through many years of efforts, China Jushi has become the leading enterprise of the fiberglass industry with sound governance, distinct strategy, good assets, excellent culture, lean management, advanced te complete sales network.

China Jushi has three domestic production bases located in Tongxiang, Jiujiang and Chengdu respectively and one oversea base in Egypt and has established 13 glass fiber production lines with the total annual capacity over 1.1 million tons. The c wide range of reinforcement fiberglass products in over 20 categories and up to 1000 specifications, mainly including E-gla rovings, chopped strands, powder and emulsion chopped strand mats, and woven rovings.

China Jushi owns proprietary technologies for design and construction of large E-glass fiber furnaces, C-glass fiber furnace; environment friendly waste fiber recycling furnaces. The company has developed the globally innovative oxy-fuel combusti and put it into industrial application which significantly reduces energy consumption per unit of output. The company has 1 most advanced fiberglass R&D base in China containing such research units as the provincial key laboratory, R&D center, t and post-doctoral research station. The testing center of the company has been certified by both China National Accredital Laboratories (CNAL) and Germanischer Lloyd (GL).

China Jushi has established 14 overseas production and trading subsidiaries in South Africa, France, Italy, Canada, Spain, In Singapore, which form a rationally distributed global sales network. The company has maintained long-term stable cooper customers, many of which are among Fortune 500 or are leading enterprises of their respective industries, from more than regions in North America, Middle East, Europe, Southeast Asia and Africa.

China Jushi has achieved lean management through implementing the management mode of "Five Targets" (Integration Systematization, Streamlining and Digitization) and KPI advocated by CNBM. The company sticks to the overall developme annual operation goals and emphasizes on the enhancement of streamlined operation and management processes to ster fundamental management and perfect the corporate governance.

Thanks to its own strength and accomplishments, China Jushi has been widely recognized by the shareholders and people of society. The company has successively been awarded with "China National Key High-tech Enterprise" by Ministry of Sc Technology and "National Innovative Pilot Enterprise (the third batch)" jointly by Ministry of Science and Technology, Sta Supervision and Administration Commission and All-China Federation of Labor, and has won many other honors and qualif "China Top 500 Building Materials Enterprise" , "China Top 500 Informationized Enterprise" , "China Outstanding Perfo Enterprise" , "China Energy Saving & Emission Reduction Leading Enterprise" and "Building Materials Industry First-Bat Credit Enterprise" .

China Jushi is committed to “Harmonious Progress, Prudent Governance, Standardized Operation, Lean Management and Development” , and strives to become an internationally competitive building materials corporation with “prominent mai  
sound governance, standardized operation and outstanding operating results” .
