TRANSITION REVIEW No.TD0011

Anti-dumping duties on certain cold rolled flat steel products originating in the People's Republic of China and the Russian Federation

Note to the public file summarising a meeting between TRID and Tata Steel UK

Meeting Date: 14 May 2021

Time: 11:30

Attendees: Representatives from TRID and Tata Steel UK.

The purpose of the meeting was to discuss the product characteristics in order to draft the product control number (PCN).

The following characteristics of cold rolled flat steel were discussed:

- the steel grades used in the UK;
- the quality differentials of the product;
- the effect of annealing on the cost of the product and the differences between continuous and batch annealing;
- the width and thickness of the product;
- the different types of edges available for the product; and
- the different finishes available for the product.
