

TRANSITION REVIEW No. TF0006

Safeguard measures on certain steel products

Note to interested parties and contributors requesting information on UK production of goods in Category 28 – non-alloy wire

During the course of the transition review so far, the case team has requested information from UK producers, importers and users in the UK to demonstrate UK production and imports of the goods subject to review. To date, the case team has not received any evidence of the production of goods in Category 28 – non-alloy wire.

The commodity codes included in Category 28 – non-alloy wire are:

7217 10 10, 7217 10 31, 7217 10 39, 7217 10 50, 7217 10 90, 7217 20 10, 7217 20 30, 7217 20 50, 7217 20 90, 7217 30 41, 7217 30 49, 7217 30 50, 7217 30 90, 7217 90 20, 7217 90 50, 7217 90 90.

This note is to request information and evidence from any producers, or users of the goods in Category 28 to demonstrate UK production of these goods. Please provide any relevant information using the email address below by 11 February 2021.

Please note that, in the absence of any evidence of UK production of these goods, the Secretary of State must, as soon as practicable, make a preliminary decision to revoke the measure in relation to those goods.

Should you have any questions, comments or relevant information, please do not hesitate to contact us at TF0006@traderemedies.gov.uk.
