

## **TRANSITION REVIEW No. TF0006**

Safeguard measures on certain steel products

### **Note to the file**

#### **Note to interested parties and contributors regarding the publication of non-confidential questionnaire responses on the public file**

The external timeline published on the public file at the time of initiation noted that non-confidential questionnaire responses from interested parties and contributors would be published at the end of January 2021. Due to some technical issues, the length of time taken for the deficiency response process and the volume of information received, not all non-confidential questionnaire responses are ready for publication. The date of publication of all non-confidential questionnaire responses will be delayed until all non-confidential questionnaires are ready for publication. The new scheduled date for the publication of all responses is 22 February 2021.

### **Further information**
