RECONSIDERATION OF AN ORIGINAL DECISION IN TRANSITION REVIEW No. TF0006

Safeguard measures on certain steel products

Note to Public File – HMRC Overseas Trade Statistics

HMRC has recently published a pre-announcement notice for corrections to the Overseas Trade Statistics. The official publication will be on the 11th November 2021. This will coincide with the September 2021 trade statistics publication.

The following link outlines at a high level what changes are going to occur. While the majority of changes are regarding non-EU exports a number also relate to imports. HMRC cannot be specific about the upcoming changes at this point in line with official statistics guidelines.

Please note that, other than the public pre-announcement, the TRA do not receive detail in advance of future HMRC publications. We will continue to communicate and pass on relevant information to all interested parties whenever possible.
