

## **TRANSITION REVIEW No. TF0006**

### **Safeguard measures on certain steel products**

#### **Note to the file - Notification of amendment to sample**

A note to file was published on 29 October and then 3 November regarding the limited examination of importers and UK producers, detailing the chosen sample. This note details amendments made to the sample of importers.

#### **Sampling methodology**

Based on the information available to the Secretary of State, the sample was made by selecting importers covering the full range of product categories as far as possible and with the most significant import volumes of the goods subject to review as far as possible. An importer has withdrawn itself from the process due to the assessment that goods imported fall out of the scope, and therefore the Secretary of State has removed this party from the sample. Following the sampling methodology, no further importers have been added to the sample.

#### **Importer sample**

The following importers will be expected to provide adequate responses to questionnaires and submit to verification of data provided.

The sample of importers is listed below. They have been sent a questionnaire.
