Subject: Individual Subsidy Amount Determination for "Özpekler İnşaat Tahhüt Dayanıklı Tüketim Malları Su Ürünleri Sanayi ve Ticaret Ltd. Şti." regarding Transition review of countervailing measure "Case TS0002: Rainbow trout originating in Turkey"

Dear Mr. 

"Özpekler İnşaat Tahhüt Dayanıklı Tüketim Malları Su Ürünleri Sanayi ve Ticaret Ltd. Şti." and its trading related company **"Özpekler İthalat İhracat Su Ürünleri Sanayi ve Ticaret Limited Şirketi"** as an exporting producer of the product concerned responded questionnaire and fully cooperated in this transition review of countervailing measure "Case TS0002: Rainbow trout originating in Turkey".

Despite the fact that Özpekler has no export sales during the investigation period and before to the UK, Özpekler fully cooperated with with the Department for International Trade – Trade Remedies Investigations Directorate in order to get its individual subsidy amount which enables to get advantage for Özpekler over non-cooperated companies from Turkey.

Please take note that the European Commission imposed 6,7% of CIF value to Özpekler as a result of the original investigation which is the least subsidy amount among Turkish exporting producers.

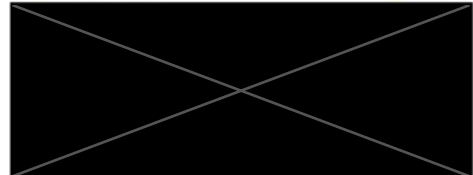

In the expiry review investigation, despite the miscalculation made by the European Commission, Özpekler subsidy amount decreased to 3,2% of CIF value which is significantly lower than the subsidy amount posed in the original investigation. Please take note that this subsidy amount might be decreased upon our objection in the Final Notice.

Please find attached the additional disclosure regarding decrease of the subsidy amount for Özpekler.

Yours Sincerely,

Serdar BASKIN
Counsel of ÖZPEKLER
Trade Remedies Consulting LLP.
