CONDITIONS OF THE CONTRACT

This insurance starts and ends at 12:00 on the days written as policy start and end dates. Also, in any case, the coverage ends with the harvest.

With this policy, the statement of the insured, Fisheries Registration System (SKS) records and in accordance with the risk examination result dated 20.05.2019, the qualifications and insurance in the attached Aquaculture Plan with the provisions of the State Supported Aquaculture Insurance General Conditions and the State Supported Aquaculture Insurance Tariffs and Instructions guarantees in the aquaculture policy with the costs of which are written and the printed has been insured over the amount of insurance.

The insured has to fulfill its obligations specified in the State Supported Aquaculture Insurance General Conditions and the State Supported Aquaculture Insurance Tariffs and Instructions during the insurance period and at the time of damage.

The final premium amount is the average after the last of the monthly product inventory lists has been posted. It is calculated by applying the insurance premium price to the insurance amount. Insurer or insured at the end of the policy. The premium difference for or against to be collected or refunded within 30 days from the policy expiry date. The premium amount to be refunded due to the monthly stock declarations, the warehouse temporary premium amount is 10%, in case of exceeding, the accuracy of the monthly stock documents. If not documented, the portion exceeding 10% of the warehouse temporary premium amount is not refunded.

If the monthly stock information forms are not sent on time, the insurer has the right to cancel the policy. or makes the premium account over the highest insurance amount declared in the development plan and In case of damage, the insurer reserves the right not to pay the compensation or to pay incomplete. Keeping records of daily normal measurements as stock number or weight in the enterprise, in the pools

is required. In the event that the mentioned record is not found during any control or damage assessment, the insurer reserves the right to cancel the policy, not to pay the indemnity or to pay incomplete.

It is mandatory to have an emergency action plan in the business for algae bloom. Any control or cancel the policy of the insurer in case the mentioned plan is not found during the damage assessment, reserves the right not to pay the compensation or to pay incomplete.

The liability of the insurer is that the entire premium or the first installment if it is decided to be paid in installments. It starts with the payment. Unless otherwise agreed, if the premium or the first installment is not paid, Even if the policy is delivered, the liability of the insurer cannot begin. Default in premium payment debt In case of loss, general provisions apply. Policy cancellations are made on a short-term basis. The insurer is obliged to pay the premium installments that are not yet due due to the occurrence of the risk. the part that does not exceed the amount of compensation it is in becomes due. This policy consists of other written documents issued by the policyholder, whose name is written above, in relation to this policy. Growth Plan and Monthly Stock Information, which constitute an integral part of the policy together with the declarations. It consists of forms and attachments.

COMPENSATION ACCOUNT

In case of a damage, the base unit insurance amount for compensation is calculated according to the values specified in the annual breeding plan or monthly stock information form, provided that the market value of the damaged fish does not exceed.

The amount of indemnity to be paid is paid after deducting the defect rate specified in the Agricultural Insurance Pool expert report or determined in reference to the content of the report.

EXEMPTION

Tariff 1: (Exemption policy over Total Insurance Rate)

The exemption rate to be applied in the event of each damage is 5% of the total insurance price in the last reported monthly stock information form prior to the damage (as stated in the Annual Aquaculture Plan, the month before the damage, the month before the damage), unless the separate Stock Information Form was sent from the insurance party.

Damages that do not exceed the exemption rate will not be paid.

STOCK DENSITY

Stock density will not exceed the values specified in the Tariff and Instructions.

The insurance policy stipulated in the insurance policy has a premium or payment and the current provision in this policy and in its appendix, compliance with art and exclusions in the event of sudden and unexpected deaths or contingencies, insurance agrees to pay or commit compensation in the case of insurance, insurance, which is caused by a risk in which insurance is covered by the period of insurance and in areas covered by water products. Also insurance, The policy agrees to pay insurance in the same amount as insurance in case of loss or death within 30 days of the end of the policy due to a patient k that occurs within the insurance period of the water products specified in the policy. However, the insurance shall be registered before the policy expires regard as happening increase

If the separate stock information has not been submitted, then the responsible U-yeti for the insurance company will not be able to be identified in the production plan The stock and stock found on the separate stock notification form submitted to the insurance by the insurance party each month, and the inventory determined in the yeti production plan, take into account the process

Coverage of the expenditures that are treated for the purpose of protecting the veterinarian, laboratory, TE feel and patient ndad r.

THE OBLIGATIONS OF THE INSURED WHEN THE DAMAGE OCCURS

In the event of damage, the insurant / insured must fulfill the obligations specified in the General Conditions and Tariffs and Instructions given with the policy.

Insurance/insurance:

- a) In the event of inadequate water products becoming ill or accident, the cost of the insurance products is immediately at its own expense, promptly hitting a veterinarian or water products specialist and taking the necessary precautions,
- b) Any damage to the policy for Kay tl water products, by reporting to the Tar m Fuses Pool Center with the telephone or fax path immediately specified a at the time of damage, and requesting expertise, it's a liability.
