

## Transition review no.TS0002

Transition review of an EU trade remedies measure concerning certain rainbow trout originating in Turkey.

### Note to the file – Case timeline extension

The timeline for this case has being extended and we now expect to complete the investigation by August 2021. The table below shows the original and updated external milestones timeline for the case:

Milestone	Original Date	New Date
Initiation	04 March 2020	04 March 2020
Questionnaires issued	April 2020	April 2020
Verification	July - September 2020	September 2020 - February 2021
Statement of Essential Facts published	December 2020	May 2021
Final Determination published	April 2021	August 2021

This decision has been taken due to the COVID-19 pandemic, which has meant that normal business activities have been disrupted both nationally and internationally. Businesses have struggled with resourcing and adapting to the new ways of working and this has affected the processes through which we engage with interested parties.

In particular:

- we have received and have granted a number of requests from interested parties and contributors for extensions to our deadlines for completing questionnaires;
- our verification process for this case will need to be carried out remotely (desktop) rather than onsite. We expect remote verification to take considerably longer than onsite verification processes would, based on the experience of other trade authorities.

If you have any questions about this revised timeline, please get in touch using the email address: [TS0002@traderemedies.gov.uk](mailto:TS0002@traderemedies.gov.uk)
