International Trade

## GENERAL NOTICE –EXTENSION OF REGISTRATION PERIOD

### TRANSITION REVIEW No.TD0009

#### Countervailing duties on certain continuous filament glass fibre products originating in the People's Republic of China

##### Notice to interested parties regarding a time extension to the Registration Period

Following the initiation of this review on 29<sup>th</sup> January 2021, the Secretary of State has received information that due to the Lunar New Year celebrations in the People's Republic of China, the deadline for registration may be unduly onerous on respondents.

##### Extension

Having considered this information, the Secretary of State has determined that granting an extension would not significantly impede the progress of the investigation and has therefore decided to extend the Registration Period until 22<sup>nd</sup> February 2021.

It is possible that anyone registering their interest after this date may not be able to participate fully in the review process.

##### Further Information

The [Trade Remedies Guidance](#) produced by the Department for International Trade provides more information about the investigations process.

Please contact [TD0009@traderemedies.gov.uk](mailto:TD0009@traderemedies.gov.uk) if you have any further comments.
