MMBTU

1 MMBtu is equal to 1 million BTU (British Thermal Unit). Natural gas is measured in MMBtu's.

1 MMBtu = 28.263682 m³ of natural gas at defined temperature and pressure.

1 standard cubic foot of natural gas yields

- 1030 BTU (between 1010 BTU and 1070 BTU, depending on quality, when burned).
